

ExpertsHired introduction

ExpertsHired.com is a professional software consulting and web design company dedicated to working with small businesses, government agencies and non-profit organizations. We have collectively over 35 years of software engineering, web design and technology experience. We have consultants located in Atlanta, Georgia and Birmingham, Alabama with clients expanding North America and some international markets.

We have worked with clients globally and as well as domestically. We are trusted by numerous clients expanding across the globe and across today's leading industries. Whether you are a small business or a large corporation, our consultants are equipped with the tools to help your organization grow, cut costs and increase revenue.

We implement the latest web and multimedia technology to help our clients achieve maximum results. Our solutions are well-designed, tested and delivered on-time and with high quality. The end results are our clients experiencing explosive revenue growth, more marketing exposure and a renewed and stronger brand.

Our Process

Our projects are based on customized **project plans developed for each client**. We create partnerships with our clients and work with them from the start to end. Our goal is to always help our clients ***minimize their costs and maximize profitability***.

Development Approach

Developing a solid Internet strategy and execution plan as a component of our client's overall business initiatives takes talent, imagination and knowledge. It also takes a full understanding of your business model, processes and customer needs.

Our engagement approach includes the following phases:

1. Envision
2. Define
3. Architect
4. Build
5. Deliver
6. Support

Development Team

ExpertsHired places a great deal of emphasis on quality and long-term direction. Hiring experienced and skilled employees has been, and will continue to be, critical to our success. We foster the principles of commitment, integrity and teamwork. ExpertsHired's commitment to customer service and to delivering cost-effective services that exceed requirements in less than the project time, has given us a reputation of which we are quite proud.
